- Sun moves SLOWLY down screen and then repeats from top.

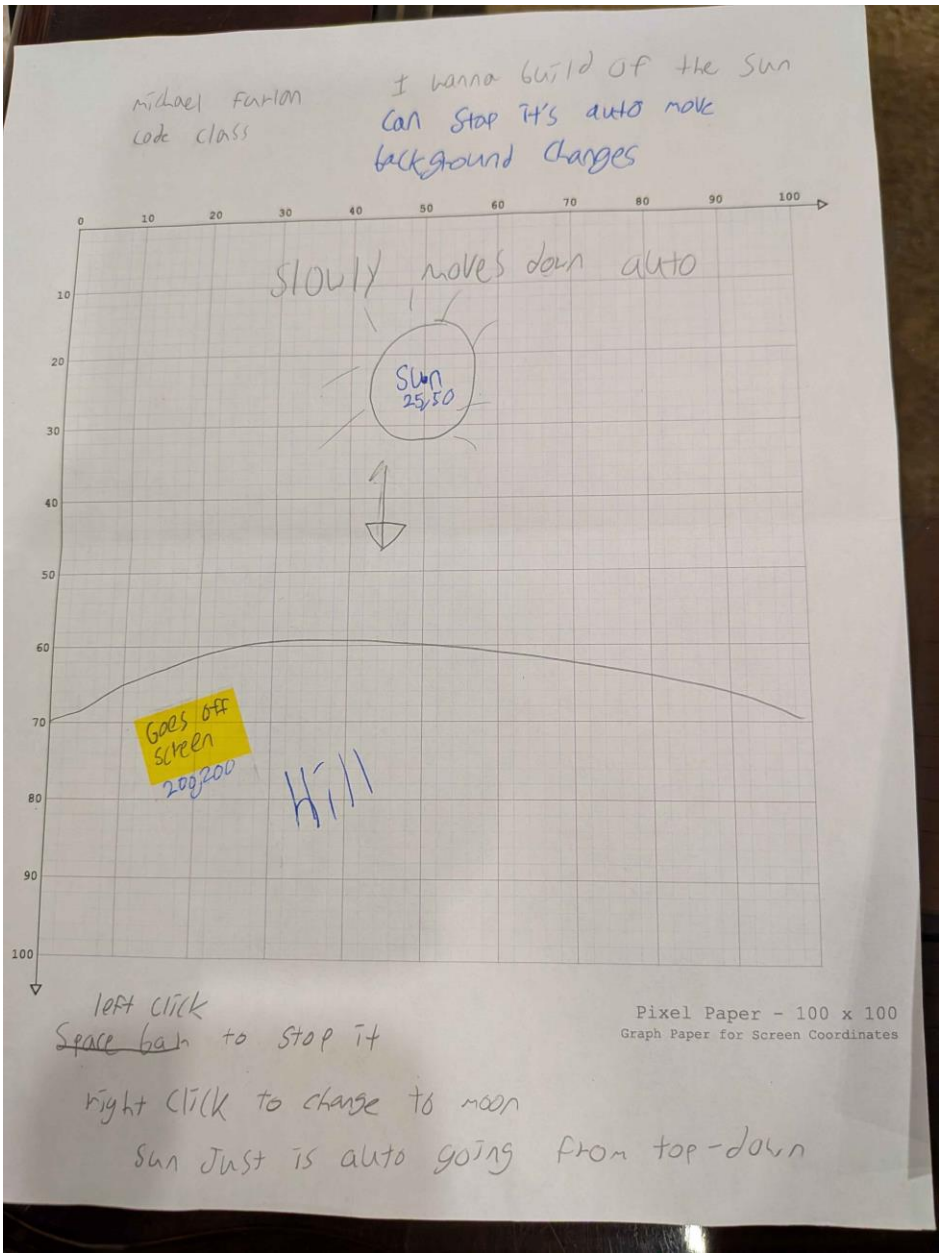

- This changes the color of it.

- I wanna have it so you can change the speed it moves

- need to make window bigger

- float and window size matter

Michael Furlan
Code Class
I wanna build of the Sun
can stop it's auto move
background changes
slowly moves down auto
Sun
25,50
Goes off screen
200,200
Hill
left click
Space bar to stop it
right click to change to moon
Sun just is auto going from top-down
